EXPLANATORY NOTE
ZONING BY- LAW NO. 40 - 2010
OF THE
CORPORATION OF THE MUNICIPALITY OF CENTRAL HURON

Preamble

The Zoning By-law was passed on September 28th, 2010 under Section 34 of The Planning Act. It implements the Official Plan for the Municipality of Central Huron which was adopted by the Council of the Municipality of Central Huron on November 23rd, 2003.

The Zoning By-law comprises both text and zoning maps on which is delineated the various zones created in the By-law.

Purpose

The purpose of this By-law is to provide the Corporation of the Municipality of Central Huron with regulations which will affect control over all forms of land use or other related matters within the Municipality.

Basis

Such regulations have been deemed necessary and in the public interest by local Council in order that possible conflicts between existing and proposed land uses can be minimized or reduced in the future.

Affected Lands

The lands directly affected by this By-law can be described as consisting of all properties lying wholly or partly within the corporate limits of the Municipality of Central Huron.

Existing By-Laws

From the coming into force of this By-law, all previous by-laws of the Municipality, passed pursuant to Section 34 of The Planning Act, R.S.O. 1990, as amended or a predecessor thereof, shall be deemed to have been repealed.

Duration

It is the intention of the Council that this Zoning By-law will be effective until circumstances change to such a degree that a revision and updating of the By-law is required. Additional uses for specific lands may be permitted by means of a rezoning or amendment to the Zoning By-law. It is the intention of the Council to accept and review applications to amend the Zoning By-law in order to allow the establishment of uses which are permitted by the Municipality of Central Huron Official Plan.

Effect

This Zoning By-law is designed to regulate by prohibition all new development except that specifically allowed in the By-law. This By-law will, however, give Municipal Council the legal authority to review the merits of any new use which is not specifically allowed by the By-law. If Council, after studying a proposal for a new use, is satisfied that the new use is in the best interests of the Municipality, the new use may be permitted provided that a separate By-law amending this By-law is passed which would permit the new use on the specified parcel of land subject to appropriate regulations.

**THE ZONING BY-LAW
OF THE CORPORATION
OF THE MUNICIPALITY OF CENTRAL HURON**

Central Huron Zoning By-law

Note: The by-law amendment referred to above is copied below for convenience. References to zone provisions have been revised to correspond with this by-law:

By-law 30 for 1992 changes the zoning of Registered Plan 328, Part of Lot 185 (municipally known as 75 Huron Street and 10 Orange Street) in the Town of Clinton from Residential Medium Density (R2) to Residential High Density-Special (R3-4), to permit an apartment dwelling with eight units, including 2 bachelor units, 1 one bedroom unit and 5 two bedroom units. The subject land is approximately 0.13 acres. The lot frontage and lot depth are 41.25 feet and 132 feet respectively. The apartment building is an existing structure. Eight surface parking spaces are proposed on the subject lot. The by-law recognizes the following deficiencies:

- a) Section 23.5.2 requires a minimum frontage of 20 metres. The subject lot frontage of 12.6 metres is deficient by 7.4 metres.*
- b) Section 23.5.1 requires a minimum lot area of 740 square metres. The subject property, with a lot area of 526 square metres, is deficient by 214 square metres.*
- c) Section 23.5.4 requires a maximum lot coverage of 40%. An examination of the "Plan of Survey" prepared by Christian Kiar on March 27, 1990 indicates that the lot coverage exceeds 40%.*
- d) Sections 23.5.5, 23.5.7, and 23.5.8 state minimum standards for front yard, interior side yard and exterior side yard, respectively. However, the subject property has no front yard, interior side yard and exterior side yard.*
- e) Section 23.5.11 requires a minimum floor area of 55 square metres for a one-bedroom unit and a minimum floor area of 64.3 square metres for a two-bedroom unit. In the subject building, the one bedroom unit (#8) is deficient by approximately 3 square metres (32 square feet) and one two-bedroom unit (#1) is deficient by approximately 12.3 square metres (32.4 square feet).*
- f) Any possible deficiencies in Minimum Amenity Area (Section 23.5.12).*
- g) Any possible deficiencies in privacy yards (Section 23.5.16).*
- h) Eight parking spaces have been proposed for the apartment building. While Section 3.22.1 requires 12 parking spaces for the proposed building, the applicant intends to provide 9 surface parking spaces.*
- i) Planting strip as per requirements in Section 3.24.*
- j) The subject property does not comply with parking requirements which stipulate that parking shall be located in the rear yard only. This by-law recognizes parking in the exterior side yard.*

23.12.4 R3-5

- 23.12.4.1** Residential apartment building containing 1 storey shall be permitted on the lands zoned R3-5.
- 23.12.4.2** Notwithstanding the provisions of Section 23.5.5 to the contrary, a front yard of 6.4 metres shall be permitted for the existing building on the lands zoned R3-5.

- 23.12.4.4** Notwithstanding the provisions of Section 23.5.5 to the contrary, a setback of 16.4 metres from an arterial road shall be permitted for the existing building on the lands zoned R3-5.
