

Downtown Clinton Construction Update

Week of May 10th, 2021

A Royal Introduction

We are fortunate to have two hosts for our construction project: Queen Victoria and Prince Albert! They have joined us, of course, because Albert and Victoria Streets are named in their honour. They will be overseeing our project, helping to direct you to your favourite stores, and part of some upcoming opportunities for you to win some Central Huron Big Dig Coupons!

If you would like to learn a little more about Victoria and Albert, this [excellent column](#) written by local historian David Yates appeared in the Clinton News Record.

Albert Street North

Starting May 10th, Albert Street will be under construction from Princess Street West going north. Project includes:

- Curb removal and replacement
- Pavement resurfacing

Repaving is scheduled to begin May 25, 2021 and is expected to be completed within one week, weather permitting. During the project one lane of traffic will remain open. Please be cautious of flag people.

Albert Street Reconstruction Project 2021

Huron County and Central Huron have awarded the contract to Lavis Contracting Company Ltd. The cost of the project is just under \$3.7 million.

Central Huron is pleased to share that Albert Street in Clinton will be receiving an extensive facelift this summer, starting early June, and finishing mid-November. During this time, Albert Street will be closed from Princess Street W. to Highway 8.

Some of the work being completed is:

- Enbridge will be replacing the gas mains and services from Hwy #8 to Princess Street. This work has already started.
- Replacement of storm sewer, sanitary sewers, watermain, concrete curbs and sidewalks, street lighting, asphalt paving, and landscaping
- Improvements to Cenotaph Park
- Some underground work will also take place on Park Lane and Princess Street West.

See the [Central Huron](#) website for more information.

Regular Communications

We are committed to communicating regularly throughout the construction stage and partnering with the Central Huron BIA to ensure business interruptions are minimized. Sign-up for our digital e-mails so that you're up to date on the project as well as some of the great initiatives that will be happening at the same time. **Watch for Big Dig Dollars coming soon!**
